

Covid-19 Outbreak Management Plan - Testlands Holiday Club

Introduction

Health and safety of all those attending our Testlands holiday provision are of the utmost priority. This document will outline how Testlands will strive to try and ensure the safety of everyone involved within our setting. It will document the measures we have in place to deal with an outbreak and the actions we will take to ensure transmission is minimised.

Operating as normal

Testlands Holiday Club will continue to follow [government guidance for out of school settings](#) and our risk assessments will reflect any changes made to these guidelines.

Potential symptoms

If anyone is feeling unwell in our setting and showing potential symptoms of Covid-19 they will be asked to complete a lateral flow test on site and go home. If a negative lateral flow test they may return to our setting providing they feel fit and well to do so and are showing no symptoms. If a positive lateral flow test, the individual must book a PCR test immediately. The setting will be required to close down and those associated with the setting will be informed to self isolate pending a PCR test result.

Confirmed positive PCR test result

If we have a confirmed positive PCR test, all those who attended or worked when the symptoms or positive lateral flow test presented itself will be required to isolate for 10 days or up until 16 August 2021. As stated in government guidelines, from 16 August 2021 children under the age of 18 years old will no longer be required to self-isolate if they are contacted by NHS Test and Trace as a close contact of a positive COVID-19 case.

Confirmed negative PCR test result

If we have a confirmed negative PCR test result, all those who attended or worked when the symptoms or positive lateral flow test presented itself will be allowed to return to the setting, providing they feel fit and well to do so and are showing no symptoms.

Actions taken if positive outbreak

Testlands Holiday Club will deliver on the following if an outbreak occurs at one of our settings:

- All areas used by Testlands Holiday Club will be deep cleaned and we will potentially implement a short term closure before anyone can return to the setting.
- Temporary use of face coverings will be required inside and/or when within 2 metres of anyone. This is mandatory for everyone on site.
- Only those who were not present when symptoms presented themselves and positive PCR test confirmed can attend.
- All those who were present when symptoms presented themselves and positive PCR test confirmed must isolate for 10 days or up until 16 August 2021 if under the age of 18 years old.
- Those who are fully vaccinated will still need to isolate for 10 days.
- Those who are fully vaccinated, having received their second jab at least 14 days prior, will not have to self-isolate if they come into contact with a positive case from 16 August 2021, providing they feel fit and well to do so and are showing no symptoms.
